

MULTISTAKEHOLDERISM IN ACTION

KENYA: CSA MSP PLATFORM 2021 plans

By RAPANDO NANCY

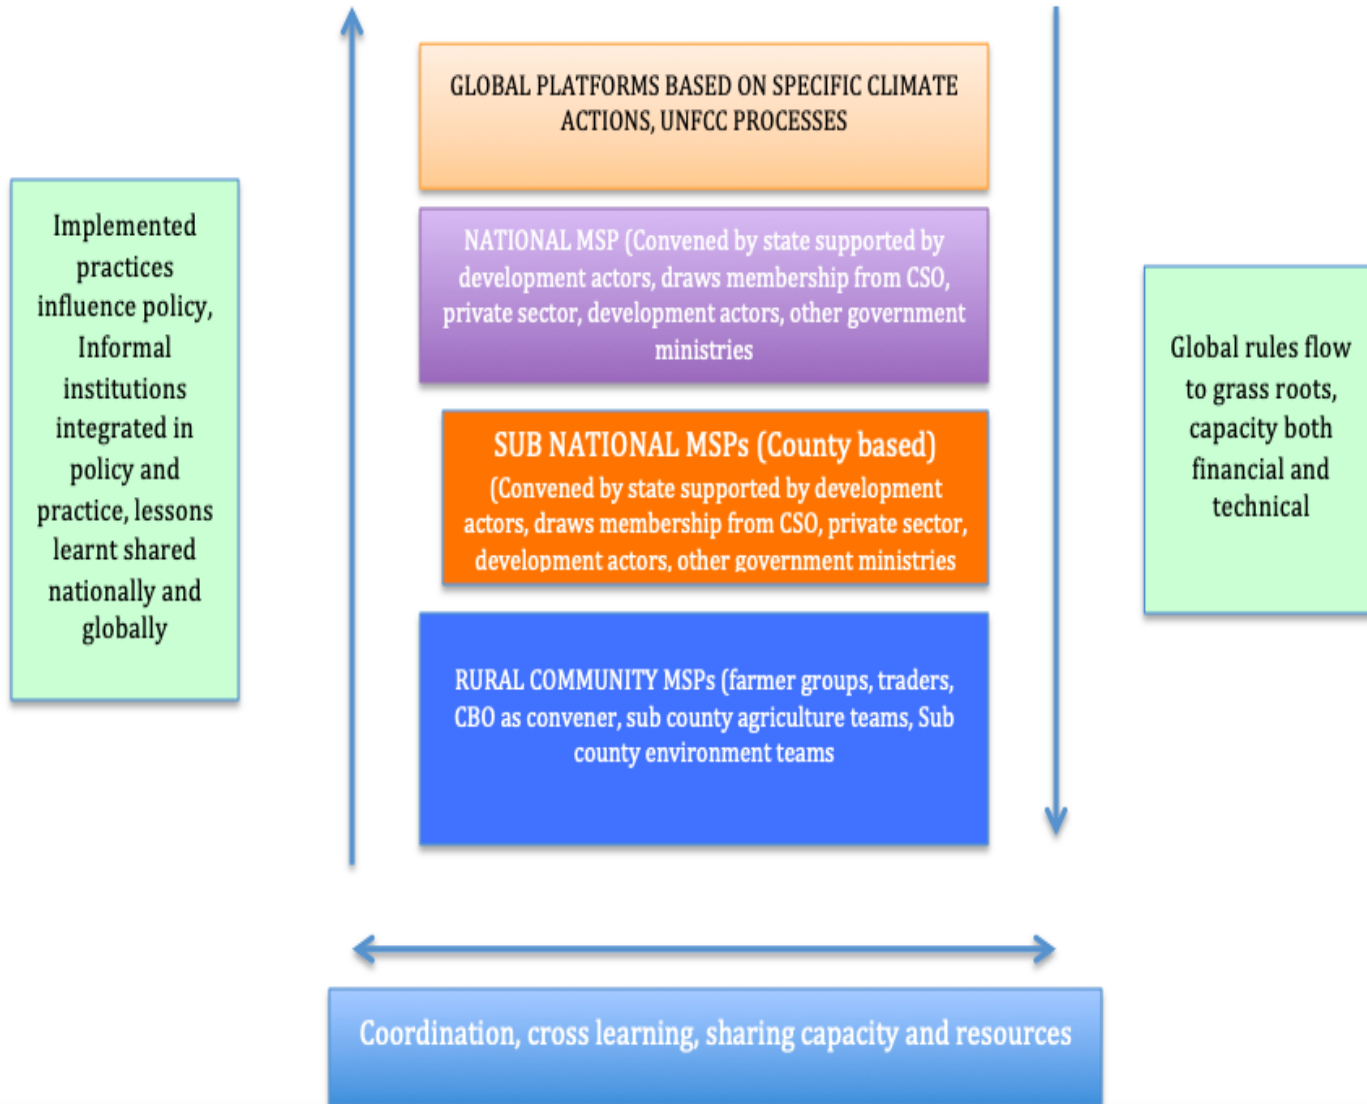

Kenya MSP Steering Committee Member.

Date: 10/3/2021

INTRODUCTION ON CSA MSP OPERATIONALISATION

MSP platforms are an avenue for:

- Effectively coordinating actors through joint planning.
- Facilitating participation of diverse actors.
- Cross-leveraging resources including knowledge, expertise and finance.
- Monitoring and evaluation
- Policy implementation through interventions.

2021 PLANS

- Conduct quarterly National MSP plenary sessions aimed at creating increased awareness and commitment towards implementing practices with CSA outcomes (**Biovision and CCAFS support**).
- Conduct monthly steering committee meetings aimed at coordinating the National MSP actions (**CCAFS, Biovision**).
- Facilitate Thematic Working Groups (TWGs) to undertake the advisory roles.
- Fundraising: Continuously mobilize technical and financial resources required for implementation of identified actions.

TWG 1: PROFILING AND COMMUNICATION OF CSA

- **Mapping and profiling of CSA actors:** Refocusing on MDAs, business member organisations, academia and research, private sector, youth based organisations and individual members.
- **Facilitate initial county entry processes:** Support county MSP in mapping and profiling of county actors and facilitate capacity building on key CSA themes.
- **Knowledge and information dissemination:** Generate information briefs to guide implementation process
- **Implementation of the communication strategy:** Website microsite management, facilitate interactive information documentation and sharing with various communication channels.
- Supporting partners (**Biovision, SNV, ICAT more partners needed to support**)

TWG 2: MONITORING EVALUATION AND LEARNING

Operationalisation of CSA reporting in Kenya:

- Finalize the M&E framework (tools, reporting templates, indicators)
- Validation meeting dedicated to M&E tool review and tool use
- Contract an IT specialist to facilitate development of the online M&E tool **linked to the CSA website.**
- Operationalize the tool as the agriculture sector source of data for reporting on the national MRV+

Capacity build counties on the use of the CSA reporting tools and support county level reporting.

Supporting partners: CIAT/ICAT

TWG 3: INVESTMENTS

Hold investment Round tables;

- To facilitate match making
- Identify opportunities, gaps and challenges on private investment in CSA.

Undertake an analysis of CSA investment Landscape in Kenya, Profile existing business cases among actors and facilitate linkages with investors.

Supporting partners: On going discussions with ILRI, new program.

TWG 4: POLICY AND EVIDENCE

- Disseminate the policy brief on **CSA** opportunities and recommendations for County Governments.
- Facilitate dialogue between researchers, practitioners and decision makers to gather evidence and share information on CSA.
- Develop a gender-focused policy brief through soliciting for and incorporating inputs from MSP members.
- Share of CSA evidence via online meetings/ webinars; regular full MSP meetings, focused webinars and other forums

Potential support: Biovision

COUNTY ENGAGEMENT

- Facilitate establishment of county based MSP.
- Hold capacity building workshops on CSA at county level.
- County profiling , especially to capture county based grass root interventions.
- **Entry already made in Siaya and Busia county supported by Biovision, Pledged support to 12 more counties by ICAT, SNV**

CALL TO SUPPORT THE MSP

- DONATE
- PICK AN ACTIVITY TO SUPPORT
- OFFER YOUR EXPERTISE AND BE PART OF TWG
- ADOPT A COUNTY AND HELP COORDINATE MSP WORK.

REACH OUT TO VERONICA NDETU OF CCU OR ANY OTHER STEERING COMMITTEE MEMBER AND PLEDGE YOUR SUPPORT.
